

# List of Figures

## CHAPTER 18—PREDICTIVE METHOD FOR FREEWAYS

Figure 18-1. The HSM Predictive Method .....	18-8
Figure 18-2. Through-Lane Count in Segments with Lane Add or Lane Drop .....	18-15
Figure 18-3. Freeway Speed-Change Lane Length .....	18-16
Figure 18-4. Curve Length and Radius Measurements .....	18-17
Figure 18-5. Measurement of Cross Section Data Elements .....	18-18
Figure 18-6. Barrier Variables .....	18-19
Figure 18-7. Type B Weaving Section and Length .....	18-19
Figure 18-8. Distance to Nearest Ramp.....	18-20
Figure 18-9. Clear Zone Width Considerations .....	18-21
Figure 18-10. Illustrative Freeway Segments and Speed-Change Lanes .....	18-22
Figure 18-11. Segmentation for Varying Median Width .....	18-23
Figure 18-12. Graphical Form of the SPFs for Multiple-Vehicle Crashes on Freeway Segments .....	18-26
Figure 18-13. Graphical Form of the SPFs for Single-Vehicle Crashes on Freeway Segments.....	18-28
Figure 18-14. Graphical Form of the SPFs for Ramp Entrance Speed-Change Lanes .....	18-31
Figure 18-15. Graphical Form of the SPFs for Ramp Exit Speed-Change Lanes .....	18-33

## CHAPTER 19—PREDICTIVE METHOD FOR RAMPS

Figure 19-1. Ramp Terminal Configurations.....	19-3
Figure 19-2. The HSM Predictive Method .....	19-11
Figure 19-3. Determination of Number of Lanes for Ramp Segments .....	19-18
Figure 19-4. Starting Location on Ramps and C-D Roads.....	19-19
Figure 19-5. Barrier Variables .....	19-20
Figure 19-6. Speed-Change Lane Location on Ramps and C-D Roads .....	19-21
Figure 19-7. C-D Road Weaving Section Length .....	19-21
Figure 19-8. Illustrative Ramp Terminals.....	19-22
Figure 19-9. Exit Ramp Skew Angle.....	19-23
Figure 19-10. Illustrative Ramp Segments and Ramp Terminals .....	19-26
Figure 19-11. Graphical Form of the SPFs for Multiple-Vehicle Crashes on Entrance Ramp Segments .....	19-30
Figure 19-12. Graphical Form of the SPFs for Multiple-Vehicle Crashes on Exit Ramp Segments .....	19-30
Figure 19-13. Graphical Form of the SPFs for Single-Vehicle Crashes on Entrance Ramp Segments .....	19-33
Figure 19-14. Graphical Form of the SPFs for Single-Vehicle Crashes on Exit Ramp Segments .....	19-33
Figure 19-15. Graphical Form of the SPF for Crashes at Signalized Ramp Terminals—Three-Leg Terminal at Two-Quadrant Partial Cloverleaf A or B (A2, B2).....	19-39
Figure 19-16. Graphical Form of the SPF for Crashes at Signalized Ramp Terminals—Three-Leg Terminal with Diagonal Exit Ramp or Four-Leg Terminal at Four-Quadrant Partial Cloverleaf A (D3ex, A4).....	19-39

Figure 19-17. Graphical Form of the SPF for Crashes at Signalized Ramp Terminals—Three-Leg Terminal with Diagonal Entrance Ramp or Four-Leg Terminal at Four-Quadrant Partial Cloverleaf B ( <i>D3en, B4</i> ) .....	19-40
Figure 19-18. Graphical Form of the SPF for Crashes at Signalized Ramp Terminals—Four-Leg Terminal with Diagonal Ramps ( <i>D4</i> ) .....	19-40
Figure 19-19. Graphical Form of the SPF Crashes at One-Way Stop-Controlled Ramp Terminals—Three-Leg Terminal at Two-Quadrant Partial Cloverleaf A or B ( <i>A2, B2</i> ) .....	19-43
Figure 19-20. Graphical Form of the SPF Crashes at One-Way Stop-Controlled Ramp Terminals—Three-Leg Terminal with Diagonal Exit Ramp or Four-Leg Terminal at Four-Quadrant parclo A ( <i>D3ex, A4</i> ) .....	19-43
Figure 19-21. Graphical Form of the SPF Crashes at One-Way Stop-Controlled Ramp Terminals—Three-Leg Terminal with Diagonal Entrance Ramp or Four-Leg Terminal at Four-Quadrant Partial Cloverleaf B ( <i>D3en, B4</i> ) .....	19-44
Figure 19-22. Graphical Form of the SPF Crashes at One-Way Stop-Controlled Ramp Terminals—Four-Leg Terminal with Diagonal Ramps ( <i>D4</i> ) .....	19-44
Figure 19-23. Effective Number of Lanes for Various Exit Ramp Configurations .....	19-56
Figure 19-24. Starting Location for Ramp and C-D Road Combinations .....	19-66

## **APPENDIX B—SPECIALIZED PROCEDURES COMMON TO CHAPTERS 18 AND 19**

Figure B-1. Determination of the Appropriate Variation of the EB Method .....	B-17
Figure B-2. Definition of Freeway Segments and Speed-Change Lanes .....	B-19
